

SPECIFICATIONS

Two component polyurethane spray foam systems are portable, self-contained dispensing systems. When used according to the manufacturer’s instructions, they supply thermal insulation and sound attenuation. These spray foams are permanent and dry within minutes of application and are ideal for repairs, renovations, new installation and can result in reducing energy consumption.

Features

- Solvent free, self cleaning
- Dispenser gun
- Contains no urea formaldehyde
- High R-value
- Convenient size
- ASTM E84 Class 2(B)
- Contains non-flammable HFC propellant
- Expands and dries tack-free with 30-60 seconds

	DENSITY (PCF)	YIELD	CONTENTS
II-205	1.75 lb/ft ³	205 board feet	2-component foam, application gun, 10-Ft. hose and nozzles
II-605	1.75 lb/ft ³	605 board feet	Kits include A & B cylinders, applicator gun with two 10-Ft. hose, nozzle plack
II-16	1.75 lb/ft ³	16 board feet	2-component polyurethane foam, Applicator, extra nozzle
